github.com/giants415 | linkedin.com/in/andrewvinocur

### SKILLS

---

Javascript (ES5, ES6) | HTML5 | CSS3 | SCSS

React | Redux | jQuery | Git, GitHub

### EXPERIENCE

---

#### General Assembly

San Francisco, CA

##### *Front End Web Development Instructor*

2018 - Present

- Lead instruction of 10-week course that covered HTML5, CSS3, ES5 Javascript, and jQuery (focus on Javascript & jQuery)
- Effectively worked with students from different backgrounds and experience levels (veteran tech workers to no experience with Front End Web Development)
- Met with students during office hours to resolve questions and facilitate research outside of main curriculum by providing additional resources for learning and development
- Constructed interactive examples and exercises to support General Assembly curriculum

#### Leverage

San Francisco, CA

##### *Virtual Assistant - Web Development*

2017

- Respond to initial client proposals, develop schedule for deliverables, and update client at EOD via Leverage Dashboard
- Debug client websites, build/implement new features or pages, and advise on best practices for Wordpress and HTML/CSS/JS websites

#### Institute for the Advancement of Psychotherapy

San Francisco, CA

##### *Non-clinical Internship*

2013 - 2015

- Manage intern meetings, projects, and assistance at IAP events
- Schedule intern support, manage attendee registration/payment, and display of promotional materials at workshops/trainings

### EDUCATION

---

#### General Assembly

San Francisco, CA

##### *Web Development Immersive*

2016

12-week, project based course focused on modern, full-stack web development (HTML/CSS/JS, MEAN stack, Ruby/Rails)

#### University of San Francisco

San Francisco, CA

*Psychology, B.A.*
