Technical Strengths

React	Javascript
CSS3	SCSS
HTML5	Node.JS
Sketch	Git

Education

Web Development Immersive
General Assembly SF
August 2016 – November 2016

B.A Psychology
University of San Francisco
August 2008 – December 2012

Projects

Character Sheet for Fate RPG System
React, Javascript, Webpack, Babel, SASS

Built to solve the issues of losing hard copies and removing the mess that comes from constant edits with pencil or pen.

Used controlled inputs to track state of components

HearthPwn – Amazon Coins Guide
HTML5, iFrame, Javascript, CSS3

Completed for client of Leverage for future use in site update.

Collaborated with client's designer to develop iFrame using styleguide and wireframes.

Guides users through 5 step process of using Amazon Coins to purchase card packs for the game Hearthstone.

Wander
Rails, Foundation, SASS

Travel app that helps new residents of a city connect with locals to discuss culture and entertainment.

Developed landing page and cities' index page.

Implemented Foundation framework for parallax scroll and responsive design.

Supported team with front end issues and debugging.

Experience

Developer   June 2017 – November 2017
Leverage

Built, updated, and debugged client websites on Wordpress using custom CSS and Javascript

Collaborated with project managers, non-developer Leverage assistants, and members of client's teams to complete tasks

Participated in weekly video scrums with Development team

Designed and edited client graphics using Sketch

Web Development Immersive   August 2016 – November 2016
General Assembly

12-week, project based course during which I studied modern, full-stack web development

Rapidly learned new technologies and built functional projects

Applied Agile methodology to individual and group projects

Non-Clinical Internship May 2013 – August 2015
Institute for the Advancement of Psychotherapy

Lead Intern May 2014 – August 2015
Trained new interns on basic HIPPA compliance, IAP projects, and assisting at IAP workshops/events

Assisted Director of IAP with weekly intern meetings

Managed expansion of annual therapuetic outcomes review to include all clients with IAP

Intern May 2013 – April 2014
Completed analysis of therapuetic outcomes for Director of IAP's 2014 clients

Supported IAP staff and presenters during official IAP events
